Biggest crap I've ever played. I can not even find words to describe this. The only positive thing (for games collectors) is that it counts as +1.. Defines unity as a whole 10/10 would throw my mouse and get 4 kills again. A hidden gem (and also a piece of trash).. Personally one of the greatest games I have ever played.. It's a fun game to play for 2 hrs then deleting it and never noticing it ever again
